

Serenity Mind LLC

Our Creed

It is paramount to provide our clients with insight that will help them make insightful choices. We believe that empowering our clients enhances their intuition, and their lives. We believe in a Creator called by many names and that we serve in many ways. “Being wealth is not about having money, it is about having options” (Chris Rock); Being healthy is living those options in positive ways that create good health, wealth and fortune.

Leona A. Tjan
